

Devizes to Westminster Canoe Race
Support Team.
Driving instructions

These notes are offered as a guide to people supporting teams on the Devizes to Westminster, International Canoe Race.

Please note:

Some items are marked IN CAPITAL LETTERS AND UNDERLINED These include instructions and should be followed. (They normally relate to access restrictions).

Calculation of crews position, against time.

If you are not sure of your crew's speed, use graph paper. Plot time vertically with 1 minute per 1 small square and distance across with 1/10 mile per 1 small square. Mark all the points where you intend to see your crew as vertical lines at the right distance and as you see them, mark the time on the relevant vertical line. Once you have two or more points, you can extrapolate to the next vertical line and be accurate to within a minute or two. Crews tend to paddle at a constant speed for many miles even if that speed varies from day to day.

If You Lose your Crew

First, give your crew a little more time to reach the relevant location. Ask other support crews if they have any news of your team. Then, if you are still not sure where they may have got to, move on to the next point where you can guarantee to be ahead of them. If they do not appear with the other boats that they have previously been paddling with and whose numbers you recognise, then call the DW Information Centre on 020-7620-0298.

Please remember, lots of support parties lose their crews.

If you have news of other crews that may be in trouble then please also report this back to the DW Information Centre on 020-7620-0298 don't assume that someone else will do this.

THAMES YOUNG MARINERS (End of third day, for staged race).
(108.4 miles)
Signed on LEFT

Teddington (Ham) to Westminster
For Tideway, use a London A-Z or other London map. There are plenty of bridges
to see your crew. Remember your crew will move quickly on this stage. Boat
speeds are MUCH greater (Assume about 3mph greater on average). Don't lose
them.

Westminster. (St Thomas's Hospital / County Hall / London Eye).

Parking for vehicles is at St Thomas's Hospital car park. Follow signposts.
Note: A height restriction of 9' 6" exists. Access to trailers may be restricted
or excluded.

Crews and boats will be removed at the steps in front of County Hall. All K2's
and C2's must be taken out at the upstream set of steps.

Follow the instructions of DW officials at the County Hall steps. (Although it
may appear otherwise, the steps and walkway, in front of County Hall, are
private property).

Reception for crews is in the grounds of St Thomas's Hospital.

CREWS ARE NOT PERMITTED INTO THE HOSPITAL BUILDINGS, WEARING RACING CLOTHES.

Remember, we are the guests of St Thomas's Hospital.

TREAT THIS AREA WITH THE GREATEST RESPECT.

Additional notes and information.

Follow the instructions of officials at all times during the event. Failure to do so may render your team time penalties or disqualification.

The emergency contact number during the event is 020-7620-0298 Only use this in an emergency.

Information will be posted on the DW web site, giving the position of teams as they proceed (<http://www.dwrace.org.uk/results/> or <http://web.onetel.net.uk/~wiktoriadaniels/dw/results>) if you, or your support, have access to the internet, during the event, then you will be able to gain, up to date, information about your team's (or competition's) progress as the race progresses.

Please make sure that checkpoints have correctly noted your crew's number when passing.

Light sticks are to be worn by crews at night. These will be provided to your crew. Additional light sticks are available at checkpoints, should your crew lose them.
